

## **We're Hiring!**

### **Fundraising & Partnerships Manager**

#### ***Are you ready for a new challenge? Looking for a rewarding role in Marine Conservation?***

We are Project Seagrass, a global charity working to save the world's seagrass meadows. We're on a mission to lead societal change to enable the recognition, recovery, and resilience of seagrass ecosystems globally—ecosystems that provide biodiversity, equitable and sustainable livelihoods, and planetary life support.

We lead, champion and communicate cutting-edge scientific research. We work with governments, NGOs, universities, businesses, communities and change makers to conduct participatory science and deliver collaborative action. We provide tailored support that is both adaptive and transformative to enable others to save the world's seagrass, whether that's with capacity, engagement, learning or resources. To save the world's seagrass, we need to have a collective passion and drive to understand seagrass and work to conserve it.

#### **Sound like an organisation you'd like to be part of?**

We are seeking a Fundraising and Partnerships Manager to strengthen and maximise income for Project Seagrass' work through grants from trusts, foundations and large funding opportunities, and donations from businesses and regular individual givers. This person will be responsible for leading on, and developing Project Seagrass' 2030 Fundraising Strategy, working closely with internal teams to support our programmes, our 10-year strategy and deliver lasting change for seagrass meadows globally.

#### **As well as this, the Fundraising and Partnerships Manager will be responsible for:**

- Assist with plans to bring in income to support our current programmes, liaising with Project Seagrass staff on applications, reports and claims.
- Researching, collating and analysing data that allows for the identification of income streams (e.g. government and other grants, corporate and individual donors, corporate sponsors, community engagement and events)

#### **Benefits of working with Project Seagrass**

- Hybrid & flexible working
- Generous leave allowance
- 5% pension contribution
- Excellent maternity package
- Bike to work scheme members
